SUN SAFETY!!

We think that our children only need sun protection when they're at the pool or beach but the truth is children need sun protection whenever they are outside. Here are a few helpful tips to protect your family from harmful UV rays!

Seek shade. UV rays are strongest and most harmful between 10 a.m. and 4 p.m. Try to reduce outside activities. If you are unable to do so, seek shade under a tree, umbrella or tent.

Cover up. Long-sleeved shirts, long pants, and skirts provide protection from UV rays, although it's not always possible! Clothing made from tightly woven fabric provide the best protection. You can find some clothing with an ultraviolet protection factor.

Get a hat. Hats are great for providing shade to the face, scalp, ears, and neck and provide terrific protection.

Wear sunglasses. Sunglasses protect your child's eyes from UV rays. Choose sunglasses that block close to 100% of both UVA and UVB rays, if possible.

Apply sunscreen. Choose a sunscreen with at least SPF 15 and UVA and UVB (broad spectrum) protection every time your child goes outside. For the best protection, apply sunscreen generously 30 minutes before going outdoors.
