"Tell me and I forget, teach me and I may remember, involve me and I learn."

- Benjamin Franklin

Car Seat Recommendations for Children by NHTSA

According to the National Highway Traffic Safety Administration, you should select a car seat based on your child's age and size. Be sure to choose a car seat that fits in your vehicle! You should refer to your car seat manufacturer's instructions and the vehicle owner's manual for installation instructions. To increase safety, please keep your child in the car seat as long as possible. And last, your child should remain in the back seat at least through the age of 12.

Birth to 12 month

Children under the age of 1 should

ALWAYS ride in a rear-facing car seat.

1 to 3 years

Once your child exceeds the height and weight limits of the rear-facing seat, your child is ready for a forward=facing car seat with a harness.

4 to 7 years

Your child may travel in a booster seat once they outgrow the forward-facing car seat with a harness.

8 to 12 years

Your child should remain in a booster seat until he or she is big enough to fit in a seat belt properly
